| Immunogen                | Mouse CD274                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | PD-L1 (CD274/B7-H1) is a critical membrane-bound costimulatory molecule belonging to the B7 superfamily that inhibits immune responses through its receptor, PD-1. PD-L1 plays a key role in the pathogenesis of inflammatory diseases (programmed death 1... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
