| Immunogen                | A partial length recombinant Tubulin, beta protein (amino acids 200-444) was used as the immunogen for this antibody.                                                                                                                                         |
| Produktbeschreibung      | Tubulin is one of several members of a small family of globular proteins and is the major constituent of microtubules. The most common members of the tubulin family are alpha-tubulin and beta-tubulin. It appears to play an important role in the forma... |
