| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A partial length recombinant NALP2 protein (amino acids 850-1060) was used as the immunogen for this antibody.                                                                                                                                                |
| Produktbeschreibung      | NALP2 (also known as PAN1/PYPAF2) is a member of the NLR (NACHT-LRR) family which includes both NODs and NALPs. Alternative names for the NLR family include CATERPILLER, NOD and NOD-LRR. NLR family members are thought to be intracellular pathogen-rec... |
