| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FACS, IF, IHC                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human CD40LG protein (around aa 108-261) (exact sequence is proprietary)                                                                                                                                                              |
| Produktbeschreibung      | CD40LG expression is mainly confined to the CD4-positive-T-cell subset. Its expression is induced shortly after T-cell activation and represents an early activation marker of T lymphocytes. CD40 is constitutively expressed mainly on B cells, macropha... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CD40LG/2763]                                                                                                                                                                                                                                                 |
| NCBI                     | <a href="#">959</a>                                                                                                                                                                                                                                           |

|                        |                                                                                                                                                                                                                                                                    |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P29965</a>                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA (For coating, order antibody without BSA),Flow Cytometry (1-2ug/million cells),Immunofluorescence (1-2ug/ml),<br>,Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 minutes at RT),(Staining of formalin-fixed tissues requires heating tissue sections |
