| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Source : The E.coli derived recombinant HRP Labeled protein contains the HCV NS3 immunodominant regions. HCV is a small 50nm, enveloped, single-stranded, positive sense RNAvirus in the family Flaviviridae. HCV has a high rate of replication with appr... |
| Reinheit                 | HCV NS3, HRP protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                                                                                                                                             |
| Antibody Type            | Recombinant Antibody                                                                                                                                                                                                                                          |
