Product Datasheet

Herboxidiene, CAS [[142861-00-5]] FBM-10-1614

Artikelname	Herboxidiene, CAS [[142861-00-5]]
Artikelnummer	FBM-10-1614
Hersteller Artikelnummer	10-1614
Alternativnummer	FBM-10-1614-1MG,FBM-10-1614-5MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	Spliceosome inhibitor...
Molekulargewicht	438.60
Reinheit	97% by HPLC NMR (Conforms)
Formulierung	White solid
CAS Nummer	[142861-00-5]
Formel	C ₂₅ H ₄₂ O ₆
Anwendungsbeschreibung	A novel polyketide fermentation product produced by <i>Streptomyces chromofuscus</i> , originally discovered by screening for herbicidal activity. Potent and selective inhibitor of spliceosome subunit SF3b.2 Specifically targets SAP155, a subunit of SF3b responsible for pre-mRNA splicing.3 Displays anti-angiogenic activity via down-regulation of VEGFR-2 and HIF-1alpha.4 Spliceosome inhibitors have attracted enormous attention due to their potential use in cancer treatment.5
