Product Datasheet

Camostat mesilate, CAS [[59721-29-8]] FBM-10-2196

Artikelname	Camostat mesilate, CAS [[59721-29-8]]
Artikelnummer	FBM-10-2196
Hersteller Artikelnummer	10-2196
Alternativnummer	FBM-10-2196-10MG,FBM-10-2196-50MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	Serine protease inhibitor, antiviral, anti-inflammatory activity...
Molekulargewicht	494.52
Reinheit	>98% by HPLC NMR (Conforms)
Formulierung	Off-white solid
CAS Nummer	[59721-29-8]
Formel	C20H22N4O5 CH3SO3H
Anwendungsbeschreibung	A serine protease inhibitor inhibiting plasmin, kallikrein, thrombin as well as trypsin, which attenuates pancreatic fibrosis.1 Reduces weight gain and improves metabolism in obese rodent models.2 In clinical use (in Japan) for pancreatitis.3 Inhibits influenza virus replication in human tracheal epithelial cells.4 Reduces infection of Calu-3 lung cells by SARS-CoV-2 (responsible for COVID-19) via inhibition of the serine protease TMPRSS2 required for viral spike protein priming.5
