Product Datasheet

DMXAA, CAS [[117570-53-3]] FBM-10-2676

Artikelname	DMXAA, CAS [[117570-53-3]]
Artikelnummer	FBM-10-2676
Hersteller Artikelnummer	10-2676
Alternativnummer	FBM-10-2676-5MG,FBM-10-2676-25MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	Mouse STING activator...
Molekulargewicht	282.29
Reinheit	98% by TLC NMR (Conforms)
Formulierung	Off-white solid
CAS Nummer	[117570-53-3]
Formel	C17H14O4
Anwendungsbeschreibung	STING (Stimulator of Interferon Genes) agonist selective for mouse STING.1,2 Intratumoral administration of DMXAA resulted in tumor regression and complete rejection in mouse xenografts.3 Tumor regression induced by DMXAA results from a cascade of cellular events which include disruption of tumor vasculature followed by the release of chemokines which trigger the recruitment of immune cells.4 DMXAA induced expression of IFN- resulting in a striking expansion of leukemia-specific T cells extending survival in two acute myeloid leukemia models.5
