Product Datasheet

Z944, CAS [[1199236-64-0]] FBM-10-3994

Artikelname	Z944, CAS [[1199236-64-0]]
Artikelnummer	FBM-10-3994
Hersteller Artikelnummer	10-3994
Alternativnummer	FBM-10-3994-5MG,FBM-10-3994-25MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	T-type calcium channel blocker...
Molekulargewicht	383.89
Reinheit	>98% by HPLC, NMR (conforms)
Formulierung	White solid
CAS Nummer	[1199236-64-0]
Formel	C19H27ClFN3O2

Anwendungsbeschreibung	<p>Z944 is a highly selective (70 fold over N-type) T-type calcium channel blocker (IC50 hCav3.2 = 50 nM).¹ It was 2.5 to 4-fold more potent for the inactivated T-type channel than for the closed channel. It was also selective against the Cav1.2, hERG, and Nav1.5 channels. Z944 potently suppressed seizures in absence epilepsy¹ and temporal lobe epilepsy² models. It reversed thermal hyperalgesia and conditioned place preference in a neuropathic pain model.³ Z944 reversed mechanical allodynia in a model of persistent inflammatory pain⁴ and displayed an antihyperalgesic effect in a model of trigeminal neuralgia⁵. Z944 significantly improved autism spectrum disorder-related behaviors via suppression of reticular thalamic hyperexcitability.⁶</p>
