Product Datasheet

L-Buthionine Sulfoximine FBM-10-4572

Artikelname	L-Buthionine Sulfoximine
Artikelnummer	FBM-10-4572
Hersteller Artikelnummer	10-4572
Alternativnummer	FBM-10-4572-100MG,FBM-10-4572-250MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	GCL inhibitor...
Molekulargewicht	222.31
Reinheit	>98%, NMR (Conforms)
Formulierung	White solid
CAS Nummer	[5072-26-4]
Formel	C8H18N2O3S
Anwendungsbeschreibung	Buthionine sulfoximine is an irreversible inhibitor of gamma-glutamylcysteine ligase (GCL). GCL is the first enzyme of the cellular glutathione biosynthetic pathway. Dysregulation of glutathione homeostasis is involved in many diseases including cancer, diabetes, neurodegenerative disorders and HIV/AIDS. ¹ Most disease states involve decreased glutathione synthesis, however, in cancer, it is increased supporting cellular proliferation and protecting cancer cells. Pharmacological inhibition of GCL has been examined as a potential cancer treatment. ²⁻⁴
