Product Datasheet

CEP FBM-10-5323

Artikelname	CEP
Artikelnummer	FBM-10-5323
Hersteller Artikelnummer	10-5323
Alternativnummer	FBM-10-5323-5MG,FBM-10-5323-25MG
Hersteller	Focus Biomolecules
Kategorie	Biochemikalien
Produktbeschreibung	Protein-RNA binding click probe...
Molekulargewicht	227.05
Reinheit	>98% by TLC, NMR (Conforms)
Formulierung	Off-white solid
CAS Nummer	[1838570-66-3]
Formel	C ₈ H ₄ Cl ₂ N ₄
Anwendungsbeschreibung	CEP (1838570-66-3) is a clickable electrophilic purine which may be used to directly quantify protein-RNA interaction on proteins via photoaffinity competition with 4-thiouridine-labeled RNA in cells. Employing CEP in a photo-activatable-competition and chemoproteomic enrichment (PACCE) protocol enables functional profiling of canonical RNA-binding domains as well as the discovery of "moonlighting RNA binding activity in the human proteome. This new methodology represents a chemoproteomic platform for global quantification of protein-RNA binding activity in living cells.
