| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | This Rat Adenylate Cyclase Activating Polypeptide 1, Pituitary (ADCYAP1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product... |
| Detektionsbereich        | 6.25-400pg/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 3.12pg/mL                                                                                                                                                                                                                                                     |
| Proben                   | serum, plasma, tissue homogenates and other biological fluids                                                                                                                                                                                                 |
| Target-Kategorie         | Rat Adenylate Cyclase Activating Polypeptide 1, Pituitary (ADCYAP1)                                                                                                                                                                                           |
| Anwendungsbeschreibung   | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                        |
