| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | This Human Alpha-Hemoglobin Stabilizing Protein (aHSP) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological... |
| Detektionsbereich        | 0.156-10ng/mL                                                                                                                                                                                                                                                  |
| Sensitivitaet            | 0.055ng/mL                                                                                                                                                                                                                                                     |
| Proben                   | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                         |
| Target-Kategorie         | Human Alpha-Hemoglobin Stabilizing Protein (aHSP)                                                                                                                                                                                                              |
| Anwendungsbeschreibung   | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                         |
