| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This Human Dihydrolipoyllysine-Residue Succinyltransferase Component of 2-Oxoglutarate Dehydrogenase Complex Mitochondrial (DLST) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates ... |
| Detektionsbereich        | 0.156-10ng/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 0.067ng/mL                                                                                                                                                                                                                                                    |
| Proben                   | tissue homogenates and other biological fluids                                                                                                                                                                                                                |
| Target-Kategorie         | Human Dihydrolipoyllysine-Residue Succinyltransferase Component of 2-Oxoglutarate Dehydrogenase Complex Mitochondrial (DLST)                                                                                                                                  |

Anwendungsbeschreibung

Assay Length: 3 hours. Experimental Method: Sandwich
