| Wirt                     | Mouse                                                                                                                                                                                                                   |
| Kategorie                | Antikörper                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                      |
| Konjugation              | Unconjugated                                                                                                                                                                                                            |
| Produktbeschreibung      | Regulates eIF4E activity by preventing its assembly into the eIF4F complex. Mediates the regulation of protein translation by hormones, growth factors and other stimuli that signal through the MAP kinase pathway.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                              |
| Molekulargewicht         | Calculated MW: 13 kDa, Observed MW: 15-20 kDa                                                                                                                                                                           |
| Isotyp                   | IgG1                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">1979</a>                                                                                                                                                                                                    |
