| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Ubiquitin-binding protein that specifically recognizes and binds Lys-63-linked ubiquitin. Plays a central role in the BRCA1-A complex by specifically binding Lys-63-linked ubiquitinated histones H2A and H2AX at DNA lesions sites, leading to target th... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | Calculated MW: 80 kDa, Observed MW: 80 kDa                                                                                                                                                                                                                    |
