| Kategorie                | Antikörper                                                                                                                                                                                                                          |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                   |
| Konjugation              | Unconjugated                                                                                                                                                                                                                        |
| Produktbeschreibung      | Ras proteins bind GDP/GTP and possess intrinsic GTPase activity. Miscellaneous Mutations which change AA 12, 13 or 61 activate the potential of Ras to transform cultured cells and are implicated in a variety of human tumors.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                          |
| Molekulargewicht         | Calculated MW: 21 kDa, Observed MW: 21 kDa                                                                                                                                                                                          |
