## Product Datasheet

### **CNOT7 (CCR4-NOT Transcription Complex, Subunit 7, CAF1, hCAF-1) (MaxLight 550), Clone: [2C4], Mouse, Monoclonal USB-244809-ML550**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA                                                                                                                                                                                                                                                         |
| Immunogen                | CNOT7 (AAH60852, 1aa-285aa) full-length recombinant protein with GST tag. MW of the GST tag alone is 26kD.                                                                                                                                                    |
| Produktbeschreibung      | MaxLight(TM)550 is a new Yellow-Green photostable dye conjugate comparable to Alexa Fluor(TM)546, 555, DyLight(TM)549 , Cy3(TM), TRITC and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (550nm), Emission... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [2C4]                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">60852</a>                                                                                                                                                                                                                                         |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |

|              |                                                                                           |
|--------------|-------------------------------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight(TM)550. |
