| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | Canine LIF is a chemokine belonging to the IL-6 cytokine family. LIF inhibits differentiation in normal stem cells, but in leukemic myeloid cells, it induces differentiation thereby preventing further growth. Recombinant protein corresponding to aa23... |
| Molekulargewicht         | 19.7                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">J9NRL6</a>                                                                                                                                                                                                                                        |
| Reinheit                 | 95% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a lyophilized powder in PBS, 10% trehalose. Reconstitute with 20ul sterile PBS, 0.1% carrier protein.                                                                                                                                             |
