| Alternativnummer         | USB-T8665-16-100                                                                                                                                                                                                                                              |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Applications: Suitable for use as a standard in immunoassay, immunogen for antisera production, and tracer for iodination. Other applications not tested. Recommended Dilution: Optimal dilutions to be determined by the researcher. Storage and Stabilit... |
| Reinheit                 | 98% No contaminants were detected by SDS-PAGE analysis.                                                                                                                                                                                                       |
| Formulierung             | Supplied as a liquid in 10mM sodium phosphate, 150mM sodium chloride, pH 7.0, 0.05% sodium azide.                                                                                                                                                             |
