| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Prepared from fresh human plasma using urea as a denaturant, then biotin labeled at primary amines. Source: Human Vitronectin, from fresh human plasma Molecular Weight: 75kD Recommended Dilution: Optimal dilutions to be determined by the researcher. ... |
| Molekulargewicht         | 75                                                                                                                                                                                                                                                            |
| Reinheit                 | ~95% (SDS-PAGE)                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in 0.05M sodium phosphate, 0.1M sodium chloride, pH 7.4. Labeled with Biotin.                                                                                                                                                            |
