## Product Datasheet

### **Human cytomegalovirus (HCMV) (strain Towne) glycoprotein UL132 Protein (Avi & His & MBP), Biotinylated TGM-TMPH-01191**

|                          |                                                                                                                                                                  |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Human cytomegalovirus (HCMV) (strain Towne) glycoprotein UL132 Protein (Avi & His & MBP), Biotinylated                                                           |
| Artikelnummer            | TGM-TMPH-01191                                                                                                                                                   |
| Hersteller Artikelnummer | TMPH-01191                                                                                                                                                       |
| Alternativnummer         | TGM-TMPH-01191-1MG,TGM-TMPH-01191-5UG,TGM-TMPH-01191-10UG,TGM-TMPH-01191-20UG,TGM-TMPH-01191-50UG,TGM-TMPH-01191-100UG,TGM-TMPH-01191-200UG,TGM-TMPH-01191-500UG |
| Hersteller               | TargetMol                                                                                                                                                        |
| Kategorie                | Biochemikalien                                                                                                                                                   |
| Produktbeschreibung      | Human cytomegalovirus (HCMV) (strain Towne) glycoprotein UL132 Protein (Avi & His & MBP), Biotinylated is expressed in E. coli....                               |
