| Produktbeschreibung      | Source: Recombinant protein corresponding to aa17-273 from <i>Borrelia burgdorferi</i> Outer surface protein A, fused to 6X His-Tag at N-terminal, expressed in Yeast. Molecular Weight: ~29.9kD Amino Acid Sequence:<br>CKQNVSSLDEKNSASVDLPGEMKVLVSKEKDKDGKYSCLKATVD... |
| Molekulargewicht         | 29.9                                                                                                                                                                                                                                                                     |
| UniProt                  | <a href="#">P0A3N6</a>                                                                                                                                                                                                                                                   |
| Reinheit                 | 90% (SDS-PAGE)                                                                                                                                                                                                                                                           |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH <sub>2</sub> O to a concentration of 0.1-1mg/ml.                                                                                          |
