| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Source: Recombinant protein corresponding to aa1-415 from Arabidopsis thaliana Pentatricopeptide repeat-containing protein At3g42630, fused to 10X His-Tag at N-terminal and Myc-Tag at C-terminal, expressed in E.coli. Molecular Weight: ~91.5kD Amino A... |
| Molekulargewicht         | 91.5                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">Q9M2A1</a>                                                                                                                                                                                                                                        |
| Reinheit                 | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
