| Produktbeschreibung      | Source: Recombinant protein corresponding to aa1-194 from human PRELI domain containing protein 3B, fused to 6X His-Tag at C-terminal, expressed in Baculovirus. Molecular Weight: ~27.1kD<br>Amino Acid Sequence:<br>MKIWTSEHVFDPWETVTTAAMQKYPNPMNPSVVGVDVLDRLH... |
| Molekulargewicht         | 27.1                                                                                                                                                                                                                                                                |
| UniProt                  | <a href="#">Q9Y3B1</a>                                                                                                                                                                                                                                              |
| Reinheit                 | 85% (SDS-PAGE)                                                                                                                                                                                                                                                      |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                                  |
