| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | The co-chaperone Aha1 (Activator of HSP90 ATPase-1) binds the middle domain of Hsp90 (amino acid 272-627) and is proposed to function as an ATPase-activating protein that competes with p23 and other co-chaperones for Hsp90 binding. Recombinant protei... |
