| Alternativnummer         | USB-A1125-34-100                                                                                                                                                                                                                                              |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | 100% conserved in mouse and human. No significant homology is seen with AKT2 or AKT1 or other kinases AKT3 or Protein Kinase gamma (RAC-PK-g) is highly related to other members of RAC protein kinase family. It is abundantly expressed in testes and br... |
| Reinheit                 | Highly purified                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in PBS, pH 7.4                                                                                                                                                                                                                           |
