| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Source: Recombinant protein corresponding to Ala27~Arg146 from mouse Vascular Endothelial Growth Factor 121, fused to His-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~19.7kD<br>Applications: Suitable for use in ELISA, Western Blot and SDS... |
| Molekulargewicht         | 19.7                                                                                                                                                                                                                                                             |
| UniProt                  | <a href="#">Q00731</a>                                                                                                                                                                                                                                           |
| Reinheit                 | 97%.                                                                                                                                                                                                                                                             |
| Formulierung             | Supplied as lyophilized powder from 20mM Tris, 150mM sodium chloride, pH 8.0, 0.01% sarcosyl, 5% trehalose. Reconstitute with sterile 20mM Tris, 150mM sodium chloride, pH 8.0 to a concentration of 0.1-1mg/ml. Do not vortex.                                  |
