## Product Datasheet

**FAIM2 (KIAA0950, LFG, LFG2, NMP35, TMBIM2, Protein Lifeguard 2, Fas Apoptotic Inhibitory Molecule 2, Neural Membrane Protein 35, Transmembrane BAX Inhibitor Motif-containing Protein 2) (HRP), Clone: [2C2], Mouse, Monoclonal100  
USB-126578-HRP**

|                          |                                                                                                                                                                                                                                                               |

| Alternativnummer         | USB-126578-HRP-100                                                                                                                                                                                                                                            |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Full-length recombinant corresponding to aa1-317 from FAIM2 (AAH00051) with GST tag. MW of the GST tag alone is 26kD.                                                                                                                                         |
| Produktbeschreibung      | FAIM2 protects cells uniquely from Fas-induced apoptosis. Applications: Suitable for use in ELISA and Western Blot. Other applications not tested. Recommended Dilution: Optimal dilutions to be determined by the researcher. AA Sequence: MTQGKLSVANKAPG... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

|                  |                                                                                                        |
|------------------|--------------------------------------------------------------------------------------------------------|
| Klon-Bezeichnung | [2C2]                                                                                                  |
| NCBI             | <a href="#">000051</a>                                                                                 |
| Reinheit         | Purified by Protein A affinity chromatography.                                                         |
| Formulierung     | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with horseradish peroxidase (HRP). |
