## Product Datasheet

**Influenza A Neuraminidase (Seasonal Influenza A H1N1 Neuraminidase, Influenza N1, Flu N1, NA), Clone: [13L15], Mouse, Monoclonal  
USB-146906**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide corresponding to seasonal influenza (H1N1) neuraminidase protein.                                                                                                                                                                           |
| Produktbeschreibung      | Influenza A virus has one of sixteen possible hemagglutinin (HA) surface proteins and one of nine possible neuraminidase (NA) surface proteins. In early 2009, a novel H1N1 swine-origin influenza (S-OIV) A virus was identified in specimens obtained fr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [13L15]                                                                                                                                                                                                                                                       |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in PBS, 0.02% sodium azide.                                                                                                                                                                                                              |
