| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Immunogen                | Synthetic peptide corresponding to a sequence DDFKTASGLVEATGAGFANTWKAQSTCHDKLDWLDD of human MUC2.                                                                                                                                                             |
| Produktbeschreibung      | Mucin 2, also known as MUC2, is a protein that in humans is encoded by the MUC2 gene. This gene encodes a member of the mucin protein family. It is mapped to 11p15.5. Mucin 2 is particularly prominent in the gut where it is secreted from goblet cells... |
| UniProt                  | <a href="#">Q02817</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a lyophilized powder from PBS, 0.05% sodium azide, 4% trehalose. Reconstitute with 200ul sterile ddH2O.                                                                                                                                           |
