| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Serves as a slightly cation selective porin. Source: Recombinant protein corresponding to aa20-331 of Neisseria Meningitidis Serogroup B Major Outer Membrane Protein P.IB, fused to 6xHis-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~37.... |
| Molekulargewicht         | 37.8                                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">P30690</a>                                                                                                                                                                                                                                        |
| Reinheit                 | 85% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
