| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                               |
| Produktbeschreibung      | Receptor for glucocorticoids (GC). Source: Recombinant protein corresponding to aa521-777 from human Glucocorticoid receptor, fused to 10X His-GST-Tag at N-terminal, expressed in E.coli.<br>Molecular Weight: ~59.8kD Amino Acid Sequence: VPATLPQLTPTLVSL... |
| Molekulargewicht         | 59.8                                                                                                                                                                                                                                                            |
| UniProt                  | <a href="#">P04150</a>                                                                                                                                                                                                                                          |
| Reinheit                 | 85% (SDS-PAGE)                                                                                                                                                                                                                                                  |
| Formulierung             | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                              |
