| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | Purified beta-actin protein nonmuscle (95%).                                                                                                                                                                                                                  |
| Produktbeschreibung      | Actin and myosin are the two major cytoskeleton proteins implicated in cellular movement, secretion, phagocytosis, and kinesis. Actin is one of the most conserved cellular protein. At least 6 actin isoforms have been identified by protein sequence an... |
| Reinheit                 | Purified by affinity chromatography to >95% purity.                                                                                                                                                                                                           |
| Formulierung             | Supplied as a liquid in SDS-PAGE sample buffer (reduced).                                                                                                                                                                                                     |
