| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | A 10 aa peptide near the NT of mouse BACE/Asp2 (1). beta-amyloid (Abeta) deposition in the brain is the hallmark of Alzheimers Disease (AD). To initiate Ab formation, beta-secretase cleaves APP at the N-terminus of Ab to release APPsb (~100kD soluble... |
| Reinheit                 | Purified                                                                                                                                                                                                                                                      |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2, 0.09% sodium azide                                                                                                                                                                                                       |
