## Product Datasheet

### **CD49f (Laminin Receptor, Integrin alpha6, VLA alpha6, Platelet gplc) (FITC), IgG2a, Clone: [2Q957 NKI-GoH3], Mouse, Monoclonal USB-C2405-03-FITC**

|                          |                                                                                                                                                                                                                                                               |

| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC, IP                                                                                                                                                                                                                                                   |
| Immunogen                | BALB/c mouse mammary tumor cells.                                                                                                                                                                                                                             |
| Produktbeschreibung      | Integrins are a family of dimeric, transmembrane proteins that mediate cell-cell and extracellular matrix adhesion. Signals transduced by integrins play a role in many biological processes, including cell growth, differentiation, migration and apopto... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [2Q957 NKI-GoH3]                                                                                                                                                                                                                                              |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |
| UniProt                  | <a href="#">P23229</a>                                                                                                                                                                                                                                        |

|              |                                                                                                             |
|--------------|-------------------------------------------------------------------------------------------------------------|
| Reinheit     | Purified by Protein G affinity chromatography from tissue culture supernatant.                              |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Fluorescein isothiocyanate (FITC). |
