| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Sequence (linear): Pro-Ala-Asn-Ile-Lys-Trp-Gly-Asp Glyceraldehyde-3-phosphate dehydrogenase (GAPDH) is well known as one of the key enzymes involved in glycolysis. Besides functioning as a glycolytic enzyme in cytoplasm, evidence suggests that mammal... |
| Reinheit                 | 95+% HPLC, Mass Spec                                                                                                                                                                                                                                          |
| Formulierung             | Supplied as a white to off-white lyophilized powder.                                                                                                                                                                                                          |
