| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | E. coli derived protein recombinant. The protein contains the HCV core immunodominant regions (aa2-119). Applications: Suitable for use in ELISA and Western Blot. Other applications not tested. Recommended Dilutions: Optimal dilutions to be determine... |
| Reinheit                 | 95% (SDS-PAGE, Bradford)                                                                                                                                                                                                                                      |
| Formulierung             | Supplied as a liquid in 1.5M urea, 25mM Tris-HCl, pH 8.0, 0.2% Triton-X, 50% glycerol.                                                                                                                                                                        |
