## Product Datasheet

### **Huntingtin Protein, aa2703-2911 (Huntington Disease) (HRP), IgG1, Clone: [3H2241 HDC8A4], Mouse, Monoclonal USB-H7960-01-HRP**

|                          |                                                                                                                                                                                                                                                                |

| Hersteller               | US Biological                                                                                                                                                                                                                                                  |
| Wirt                     | Mouse                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | IHC, IP, WB                                                                                                                                                                                                                                                    |
| Immunogen                | Recombinant protein corresponding to aa2703-2911 of human Huntingtin Protein.                                                                                                                                                                                  |
| Produktbeschreibung      | Huntingtons disease (HD) is a neurodegenerative disorder caused by an expanding polyglutamine repeat in the huntingtin gene. HD is a mid-life onset autosomal dominant neurodegenerative disease that is characterized by psychiatric disorders, dementia, ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [3H2241 HDC8A4]                                                                                                                                                                                                                                                |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">P42858</a>                                                                                                                                                                                                                                         |

|              |                                                                                 |
|--------------|---------------------------------------------------------------------------------|
| Reinheit     | Purified by Protein G affinity chromatography                                   |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with horseradish peroxidase (HRP). |
