| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IF, IHC, WB                                                                                                                                                                                                                                                   |
| Immunogen                | Influenza A / Puerto Rico / 8/34 (H1N1) and A/Bangkok / 1/79 (H3N2) viruses.                                                                                                                                                                                  |
| Produktbeschreibung      | MaxLight(TM)650 is a new Far-IR stable dye conjugate comparable to Alexa Fluor(TM)647, DyLight(TM)649, Cy5(TM) and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (655nm), Emission (676nm), Extinction Coe... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [3H2462 GA2B]                                                                                                                                                                                                                                                 |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|              |                                                                                |
|--------------|--------------------------------------------------------------------------------|
| Reinheit     | Purified by Protein A affinity chromatography from tissue culture supernatant. |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with MaxLight(TM)650.             |
