## Product Datasheet

**Interleukin 1 Receptor Antagonist (IL-1RA, IL1RA, IL-1ra3, IL-1RN, IL1RN, Anakinra, DIRA, ICIL-1RA, IL1 Inhibitor, IL1F3, IRAP, MGC10430, MVCD4), IgG1, Clone: [2D11], Mouse, Monoclonal  
USB-I7663-25L5**

|                          |                                                                                                                                                                                                                                                                  |

| Wirt                     | Mouse                                                                                                                                                                                                                                                            |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                       |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | The IL-1ra3 belongs to the IL-1 system which includes two agonists (IL-1a and IL-1b), converting enzymes, antagonistic two receptors (IL-1 R1 and IL-1 RII) and the IL-1 receptor accessory protein.<br>Applications: Suitable for use in Western Blot, ELISA... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [2D11]                                                                                                                                                                                                                                                           |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                             |
| Reinheit                 | Purified by Protein G affinity chromatography.                                                                                                                                                                                                                   |
| Formulierung             | Supplied as a liquid in PBS, 0.1% BSA, 0.02% sodium azide.                                                                                                                                                                                                       |
