| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | L-Lactate: NAD <sup>+</sup> oxidoreductase (EC 1.1.1.27.) from pig heart<br>Reaction Equation: L-Lactate + NAD <sup>+</sup> = Pyruvate + NADH<br>Contaminants: Malate dehydrogenase 0.03% Myokinase 0.01%<br>Pyruvate kinase 0.003% Glutamic-pyruvic transaminase* 0.03%<br>Glutamic-oxaloacet... |
| Reinheit                 | Purified                                                                                                                                                                                                                                                                                          |
| Formulierung             | Supplied as an ammonium sulfate suspension.                                                                                                                                                                                                                                                       |
