| Alternativnummer         | USB-R1587-03-100                                                                                                                                                                                                                                              |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | Control Peptide for R1587-01 (antiserum) and R1587-04 (affinity purified) A 14-aa peptide sequence near the N-terminus of mouse RELM-alpha (1) was coupled with KLH. Resistance to insulin characterizes type 2 diabetes, the most common form of diabetes... |
| Reinheit                 | Highly purified                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2                                                                                                                                                                                                                           |
