| Hersteller Artikelnummer | V2122-11A                                                                                                                                                                                                                                                     |
| Alternativnummer         | USB-V2122-11A-1                                                                                                                                                                                                                                               |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Sheep                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Immunogen                | Purified recombinant human Vimentin (Vm) produced in bacteria. This protein constitutes a 20kD fragment from the amino-terminus of vimentin.                                                                                                                  |
| Produktbeschreibung      | Applications: Suitable for use as in Immunoelectrophoresis (IEP) and ELISA. Other applications not tested. Recommended Dilutions: Optimal dilutions to be determined by the researcher. Storage and Stability: May be stored at 4C for short-term only. Al... |
| Reinheit                 | Purified by caprylic acid and ammonium sulfate precipitations, and solid -phase adsorption to remove unwanted crossreactivity.                                                                                                                                |
| Formulierung             | Supplied as a liquid in 10mM HEPES, pH 7.4, 0.15M sodium chloride, 50% glycerol.                                                                                                                                                                              |
