## Product Datasheet

### **Anti-Flotillin 2 Antibody Picoband (monoclonal, 4D8A3) Fluoro647 Conjugated, Clone: [Clone: 4D8A3], Mouse, Monoclonal BOB-M06107-2-FLUORO647**

|                          |                                                                                                                                                                            |

| Artikelnummer            | BOB-M06107-2-FLUORO647                                                                                                                                                     |
| Hersteller Artikelnummer | M06107-2-Fluoro647                                                                                                                                                         |
| Alternativnummer         | BOB-M06107-2-FLUORO647-100UG                                                                                                                                               |
| Hersteller               | Boster Bio                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                                                 |
| Applikation              | FC                                                                                                                                                                         |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                          |
| Immunogen                | E.coli-derived human Flotillin 2 recombinant protein (Position: K169-K344). Human Flotillin 2 shares 100% amino acid (aa) sequence identity with both and rat Flotillin 2. |
| Klonalität               | Monoclonal                                                                                                                                                                 |
| Klon-Bezeichnung         | [Clone: 4D8A3]                                                                                                                                                             |
| NCBI                     | <a href="#">2319</a>                                                                                                                                                       |
| UniProt                  | <a href="#">Q14254</a>                                                                                                                                                     |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .                                                                |

|                        |                                                                      |
|------------------------|----------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified.                                         |
| Formulierung           | Liquid                                                               |
| Target-Kategorie       | Flotillin-2                                                          |
| Application Verdünnung | Flow Cytometry, Optimal dilutions should be determined by end users. |
