### Anti-c-Myc Antibody Picoband PE Conjugated, Rabbit, Polyclonal BOB-PB9092-PE

|                          |                                                                                                                                                                |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-c-Myc Antibody Picoband PE Conjugated, Rabbit, Polyclonal                                                                                                 |
| Artikelnummer            | BOB-PB9092-PE                                                                                                                                                  |
| Hersteller Artikelnummer | PB9092-PE                                                                                                                                                      |
| Alternativnummer         | BOB-PB9092-PE-100UG                                                                                                                                            |
| Hersteller               | Boster Bio                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                     |
| Applikation              | FC                                                                                                                                                             |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                              |
| Immunogen                | E.coli-derived human c-Myc recombinant protein (Position: E257-A439). Human c-Myc shares 91% amino acid (aa) sequences identity with both mouse and rat c-Myc. |
| Klonalität               | Polyclonal                                                                                                                                                     |
| Molekulargewicht         | Calculated Molecular Weight: 48804 MW                                                                                                                          |
| NCBI                     | <a href="#">4609</a>                                                                                                                                           |
| UniProt                  | <a href="#">P01106</a>                                                                                                                                         |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% NaN <sub>3</sub> .                                                   |
| Reinheit                 | Immunogen affinity purified.                                                                                                                                   |

|                        |                                                                      |
|------------------------|----------------------------------------------------------------------|
| Formulierung           | Liquid                                                               |
| Target-Kategorie       | Myc proto-oncogene protein                                           |
| Application Verdünnung | Flow Cytometry, Optimal dilutions should be determined by end users. |
