Chicken Creatine Kinase MB Isoenzyme (CKMB) ELISA Kit BYT-ORB1496501

Artikelname	Chicken Creatine Kinase MB Isoenzyme (CKMB) ELISA Kit
Artikelnummer	BYT-ORB1496501
Hersteller Artikelnummer	orb1496501
Alternativnummer	BYT-ORB1496501-48,BYT-ORB1496501-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Gallus
Produktbeschreibung	Chicken CKMB ELISA Kit...
Konzentration	10 ng/mL
Detektionsbereich	0.16-10 ng/mL
Sensitivitaet	0.059 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Anwendungsbeschreibung

Application Notes: standard: 10 ng/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Chicken CKMB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Chicken CKMB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Chicken CKMB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Chicken CKMB in the samples is then determined by comparing the OD of the samples to the standard curve
