Product Datasheet

General Androstenedione (ASD) ELISA Kit BYT-ORB1806523

Artikelname	General Androstenedione (ASD) ELISA Kit
Artikelnummer	BYT-ORB1806523
Hersteller Artikelnummer	orb1806523
Alternativnummer	BYT-ORB1806523-48,BYT-ORB1806523-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	All
Produktbeschreibung	General Androstenedione (ASD) ELISA Kit...
Detektionsbereich	0.16-10ng/mL
Sensitivitaet	0.096 ng/mL
Proben	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Target-Kategorie	ASD

Anwendungsbeschreibung

Application Notes: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Androstenedione(ASD) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Androstenedione(ASD). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Androstenedione(ASD) in the samples is then determined by comparing the OD of the samples to the standard curve
