## Product Datasheet

### General Homovanillic Acid (HVA) ELISA Kit BYT-ORB1806534

Artikelname	General Homovanillic Acid (HVA) ELISA Kit
Artikelnummer	BYT-ORB1806534
Hersteller Artikelnummer	orb1806534
Alternativnummer	BYT-ORB1806534-48,BYT-ORB1806534-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	All
Produktbeschreibung	General Homovanillic Acid (HVA) ELISA Kit...
Detektionsbereich	3.13-200ng/mL
Sensitivitaet	0.97 ng/mL
Proben	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Target-Kategorie	HVA

Anwendungsbeschreibung

Application Notes: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Homovanillic Acid(HVA) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Homovanillic Acid(HVA). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Homovanillic Acid(HVA) in the samples is then determined by comparing the OD of the samples to the standard curve
