Product Datasheet

Human Leptin Receptor (LEPR) Microsample Fast ELISA Kit BYT-ORB1806663

Artikelname	Human Leptin Receptor (LEPR) Microsample Fast ELISA Kit
Artikelnummer	BYT-ORB1806663
Hersteller Artikelnummer	orb1806663
Alternativnummer	BYT-ORB1806663-48,BYT-ORB1806663-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Leptin Receptor (LEPR) Microsample Fast ELISA Kit...
Detektionsbereich	0.63-40ng/mL
Sensitivitaet	0.38 ng/mL
UniProt	P48357
Formulierung	Ready to use
Proben	serum, plasma, Tissue homogenate and Other biological samples,Sample volume:25µL
Target-Kategorie	LEPR

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human LEPR. Samples (or Standards) are added to the micro ELISA plate wells and combined with the specific antibody and biotinylated detection antibody specific for Human LEPR. Then Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human LEPR, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human LEPR. You can calculate the concentration of Human LEPR in the samples by comparing the OD of the samples to the standard curve
